

ALL WATER CARBON EPOXY SERIES

Our All Water Carbon Epoxy Series of paddles perform well in a variety of environments (surf, race and touring) and are designed for high performance all water paddling. Why Carbon Epoxy Blades? Because they are foam cored, light weight, stiff and have a glossy finish.

METHANE II ¥67,000 【税別】
The original high performance All Water SUP.

TOP

- Carbon Ergo-T™ Grip provides the greatest level of control and allows for a relaxed hand position.

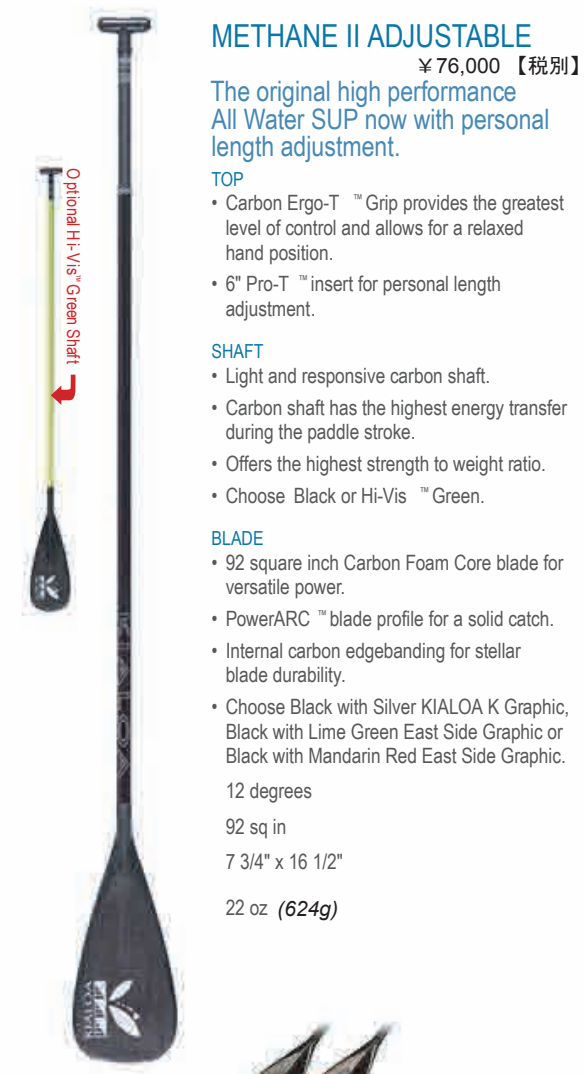

SHAFT

- Light and responsive carbon shaft.
- Carbon shaft has the highest energy transfer during the paddle stroke.
- Offers the highest strength to weight ratio.
- Choose Black or Hi-Vis™ Green.

BLADE

- 92 square inch Carbon Foam Core blade for versatile power.
- PowerARC™ blade profile for a solid catch.
- Internal carbon edgebanding for stellar blade durability.
- Choose Black with Silver KIALOA K Graphic, Black with Lime Green East Side Graphic or Black with Mandarin Red East Side Graphic.
